Instructor	Clankie
Unit	4
Title	Small talk
Target Sentence Patterns (optional)	
Key Questions / Expressions /	<p>Questions:</p> <p>In class, we covered how to make small talk by continuing a conversation past the basic introduction. I encouraged them to answer each question with a follow-up question based on the answer from the partner. For homework, I told them to write questions to ask their instructor next week and to think about the answer they might get and be ready to ask a follow-up question to keep the conversation going. Some can do it, some can not. Some of the areas of small talk we covered were family, pets, part-time jobs, and leisure activities. Before we break off into groups next week, you will be able to see me review these. I hope it will give you all cues on what we did. Please feel free to engage students in asking/answering/and follow-up in whatever topics/ways you think might work best.</p>
